

NEWS RELEASE FOR IMMEDIATE RELEASE

Intuitive Research and Technology Corporation Employee Published in Machine Design Magazine

HUNTSVILLE, AL – December 10, 2008 – Intuitive Research and Technology Corporation (*INTUITIVE*) is pleased to announce that Brian McElyea, Senior Mechanical Engineer, has authored an article titled “Software Review: PDM Software Handles Enterprise Engineering Data” published in the November 6, 2008 edition of Machine Design Magazine.

Machine Design Magazine is a publication that connects OEM design engineers with the in-depth information they need about various engineering disciplines, emerging technologies, new products, the "basics" and more.

Intuitive Research and Technology Corporation (*INTUITIVE*), a certified 8(a) Company and Small and Disadvantaged Business, provides a myriad of services in programmatic support, systems engineering, product development, production systems support, rapid prototyping, and technology management solutions to the Department of Defense, government agencies, and commercial companies.
