

## **NEWS RELEASE FOR IMMEDIATE RELEASE**

### **Intuitive Research and Technology Corporation Employee Nominated by EDN Magazine**

**HUNTSVILLE, AL – July 7, 2008** – Intuitive Research and Technology Corporation (*INTUITIVE*) is pleased to announce that Ray Kendall, PE, Electrical Engineering Functional Lead for the Electronic Systems Support Laboratory & Developmental Programs, and recognized expert in the field of PSpice modeling and analysis, was a finalist at the 2008 EDN Innovation Awards celebration. Mr Kendall was nominated in the Best Contributed Article of 2007 category for his article, "User-friendly Model Simplifies Spice Op-Amp Simulation" published in the Jan. 4th, 2007 edition of EDN Magazine.

EDN is a leading technical journal in the areas of electronic design, computers, communications, embedded, industrial and consumer electronics. Mr. Kendall previously authored "Modular Macromodeling Techniques for Spice Simulators" also published in EDN Magazine on March 7, 2002

**Intuitive Research and Technology Corporation** (*INTUITIVE*), a certified 8(a) Company and Small and Disadvantaged Business, provides a myriad of services in programmatic support, systems engineering, product development, production systems support, rapid prototyping, and technology management solutions to the Department of Defense, government agencies, and commercial companies.
