Intuitive Research and Technology Corporation Awarded Task Order to Support US Army Aviation and Missile Research, Development, and Engineering Center

HUNTSVILLE, AL – September 10, 2008 – Intuitive Research and Technology Corporation (*INTUITIVE*) is pleased to announce the award of a \$140 million Task Order in support of the Aviation and Missile Research, Development, and Engineering Center (AMRDEC). The direct award to *INTUITIVE* was made through the AMCOM EXPRESS BPA awarded to Stanley in June 2008.

“*INTUITIVE* is honored to continue supporting the U.S. Army Aviation and Missile Research, Development, and Engineering Center,” said Mr. Harold R. Brewer, cofounder and President of *INTUITIVE*. “To be given this opportunity is a testament to our staff and their commitment to the success of AMRDEC programs. Our ultimate customer is the Warfighter and through this effort we continue to assist in providing them with exceptional tools, systems and equipment.”

The *INTUITIVE* Team will provide the AMRDEC with technical, engineering and research and development support services for supported weapon systems, automated test equipment, embedded test systems, non-destructive test systems, calibration systems, test and diagnostic systems, test, measurement and diagnostic equipment, automated test procedures and test program sets.

Intuitive Research and Technology Corporation, a certified 8(a) Company and Small Disadvantaged Business, provides a myriad of services in programmatic support, systems engineering, product development, production systems support, rapid prototyping, and technology management solutions to the Department of Defense, government agencies, and commercial companies.
