

NEWS RELEASE FOR IMMEDIATE RELEASE

***INTUITIVE* is Awarded an Economic Analysis Task Order as part of our Blanket Purchase Agreement with Letterkenny Army Depot**

HUNTSVILLE, AL – March 23, 2005 - Intuitive Research and Technology Corporation (*INTUITIVE*) announces the award of an Economic Analysis Task Order as part of our Blanket Purchase Agreement (BPA) Prime Contract to provide Professional Engineering Services at Letterkenny Army Depot, Chambersburg, PA and/or Tobyhanna Army Depot, Tobyhanna, PA.

Ms. Glenda Blevins, *INTUITIVE* Program Manager, states “*INTUITIVE* is pleased to have been awarded this first task under our BPA with Letterkenny Army Depot. This endeavor affords our company, once again, the opportunity to experience greater achievement while assisting the Depot in justifying the funding for needed capital improvements. This would not be possible without the experience level, dedication, and expertise of our diversified staff. In addition, a recent retiree from Letterkenny Army Depot (Gerald “Chappy” Chapman) is joining the *INTUITIVE* family and should prove an invaluable asset in this effort.”

INTUITIVE will perform 18 economic analyses identified on the LEAD consolidated depot Capital Investment Program (CIP) plan for projects having substantial dollar values. *INTUITIVE* will also assess the total resource implications of investment proposals, including facility construction and renovation, industrial plant equipment and construction equipment purchases. In addition, *INTUITIVE* will identify and develop at least two feasible alternatives for accomplishing each project objective and coordinate the work of subject matter specialists in identifying the benefits and costs associated with the resource requirements and possible alternatives. *INTUITIVE* will also conduct studies of existing plant equipment and records to obtain data such as utilization, operations, workflow, quality control and inspection requirements and ensure that all data is valid and is submitted in the correct format.

INTUITIVE anticipates that at least 50% of the work will be performed in Huntsville, AL and 50% of the work will be performed on site at Letterkenny Army Depot.

Intuitive Research and Technology Corporation: *INTUITIVE*, a certified 8(a) Company and Small and Disadvantaged Business, provides a myriad of services in programmatic support, systems engineering, product development, production systems support, rapid prototyping, and technology management solutions to the Department of Defense, government agencies, and commercial companies. *INTUITIVE* was co-founded in 1999 by A.R. (Rey) Almodóvar and Harold R. (Hal) Brewer.
