Intuitive Research and Technology Corporation Gives Employees Midland Weather Alert Radios

HUNTSVILLE, AL – March 2, 2007 – In response to the start of Huntsville’s severe weather season, Intuitive Research and Technology Corporation (*INTUITIVE*) purchased Midland Weather Alert Radios for its staff. *INTUITIVE* is committed to being a family-friendly business and what better way to support employees and their families than by ensuring their safety from severe weather. The weather radios were given out Friday, March 2nd to employees by the Vice President and COO, Harold Brewer. After handing out the radios Mr. Brewer stated,

“Severe weather affects every person in Huntsville and awareness is the first step to being prepared. *INTUITIVE* wants to ensure that our employees are knowledgeable and prepared when it comes to severe weather and the safety of their families.”

INTUITIVE also has a comprehensive Employee Portal Page that it uses to communicate weather announcement such as; office delays and closing, weather safety tips and instruction on how to program their new weather alert radios.

Intuitive Research and Technology Corporation (*INTUITIVE*), a certified 8(a) Company and Small and Disadvantaged Business, provides a myriad of services in programmatic support, systems engineering, product development, production systems support, rapid prototyping, and technology management solutions to the Department of Defense, government agencies, and commercial companies.
