

## NEWS RELEASE FOR IMMEDIATE RELEASE

### **Intuitive Research and Technology Corporation's Employee Has Published Article on *CADCAMnet***

**HUNTSVILLE, AL – September 2009** – Intuitive Research and Technology Corporation (*INTUITIVE*) is pleased to announce that one of its valued engineers has been recognized by publication in the world's leading online newsletter for engineering automation, *CADCAMnet*. Brian McElyea's article titled, "SolidWorks 2010 Puts the Emphasis on Efficient Workflow," was selected for publication for the September 24, 2009 edition of the online magazine. Mr. McElyea's article reviews what's new and significant in the release of SolidWorks Professional 2010, a 3D mechanical design software.

Mr. McElyea has been working as a Sr. Mechanical Engineer at *INTUITIVE* since July 2008. His effort and accomplishments are examples of the dedication and ambition needed for success. *INTUITIVE* congratulates Mr. McElyea for his publication and is proud of his outstanding achievements.

*CADCAMNet* is a weekly publication that covers new, evolving and established technologies for engineering and design, with emphasis on product development technologies. For more information about *CADCAMnet* visit [www.cadcamnet.com](http://www.cadcamnet.com).

**Intuitive Research and Technology Corporation** (*INTUITIVE*), a certified 8(a) Company and Small and Disadvantaged Business, supplies a wide range of services including programmatic support, systems engineering, product development, production systems support, rapid prototyping, and technology management solutions to the Department of Defense, government agencies, and commercial companies.
