

## NEWS RELEASE FOR IMMEDIATE RELEASE

### **Intuitive Research and Technology Corporation's Employees Receive CISSP Certifications**

**HUNTSVILLE, AL – October 2009** – Intuitive Research and Technology Corporation (*INTUITIVE*) is pleased to announce that two of their Senior Systems Analysts, Jason Smith and Michael Yohe, are now CISSP (Certified Information Systems Security Personnel) certified. Smith and Yohe completed the extensive CISSP examination on October 24, 2009. The examination covers ten CISSP information systems security test domains. To complete the certification process, a candidate must not only pass the exam with a scaled score of 700 points or greater, but must also meet the CISSP experience eligibility requirements, submit a properly completed and executed Endorsement form, and if selected for audit, must successfully pass the audit of their assertions regarding professional experience.

Smith and Yohe have been part of the *INTUITIVE* team for the past four and two years, respectively. Both Senior Systems Analysts provide technical support in Program Information Assurance and Information Technology. Their certifications reveal exceptional efforts to advance their knowledge and understanding of quality services. *INTUITIVE* congratulates and supports these motivated individuals.

**Intuitive Research and Technology Corporation** (*INTUITIVE*), a certified 8(a) Small and Disadvantaged Business, supplies a wide range of services including programmatic support, systems engineering, product development, production systems support, rapid prototyping, and technology management solutions to the Department of Defense, government agencies, and commercial companies.
