

***INTUITIVE* Selected as Prime Contractor on \$171 Million Contract Award to Support U.S. Army Aviation & Missile Research, Development & Engineering Center**

Company to Provide Battlefield Automated Systems Engineering Support to Software Engineering Directorate

**HUNTSVILLE, AL – August 2010** – Intuitive Research and Technology Corporation (*INTUITIVE*) announced today they have been awarded a task order from the U.S. Army Aviation and Missile Command (AMCOM) to provide systems engineering support services to the Army Aviation & Missile Research, Development & Engineering Center (AMRDEC) Software Engineering Directorate (SED). The single award, indefinite-delivery/indefinite-quantity task order has a five-year period of performance and a ceiling value of \$171 million. The Battlefield Automated Systems Engineering Support (BASES) task order was awarded under the AMCOM Expedited Professional & Engineering Support Services (EXPRESS) contract.

The *INTUITIVE* Team will provide engineering expertise required to accomplish the SED mission, during all phases for Battlefield Automated Systems (BAS). Under the task order, *INTUITIVE* will lead a team of 17 subcontractors and provide life cycle systems and software engineering support to integrate technology and equipment needed for continued mission success.

After receiving notification of the award, Mr. Harold R. Brewer, cofounder and President of *INTUITIVE*, stated, "We are very excited to begin efforts towards this contract. *INTUITIVE* considers it a great opportunity to show how dedicated our Team is to providing quality support to the Software Engineering Directorate and AMRDEC. "

**Intuitive Research and Technology Corporation** (*INTUITIVE*), a Small and Disadvantaged Business, supplies a wide range of services including programmatic support, systems engineering, product development, production systems support, rapid prototyping, and technology management solutions to the Department of Defense, government agencies, and commercial companies.
