

***INTUITIVE* Selected as Prime Contractor on \$54 Million Task Order Award to Support U.S. Army Aviation & Missile Research, Development & Engineering Center**

Company to Provide Technical Support to the Prototype Integration Facility

HUNTSVILLE, AL – September 2010 – Intuitive Research and Technology Corporation (*INTUITIVE*) announced today they have been awarded a task order from the U.S. Army Aviation and Missile Command (AMCOM) to provide technical support to the Prototype Integration Facility (PIF). The single award, indefinite-delivery/indefinite-quantity task order has a ceiling value of \$54 million and a five-year period of performance. The PIF task order was awarded under the AMCOM Expedited Professional & Engineering Support Services (EXPRESS) contract.

INTUITIVE will lead a team of 18 subcontractors to support individual Technical Instructions (TIs) for each mission task. In accordance with the AMCOM EXPRESS statement of work, the *INTUITIVE* Team will provide electrical and mechanical engineering, systems engineering, and program management support to organizations including the AMCOM, Program Executive Office (PEO) Missiles and Space, Missile Defense Agency, and PEO Aviation.

INTUITIVE anticipates becoming a valuable proponent for tasks awarded under this contract with a strong team structure to accomplish operational success.

Intuitive Research and Technology Corporation (*INTUITIVE*), a Small and Disadvantaged Business, supplies a wide range of services including programmatic support, systems engineering, product development, production systems support, rapid prototyping, and technology management solutions to the Department of Defense, government agencies, and commercial companies.
